***The Best Golf Holes in the World... all over the World!***

Engineered Plastic Components: Target Cup-Setters, Target-Liners, Target Cup-Liners

Telephone (713) 340-1177 • Fax (713) 340-1178 • E-mail: [USGHT@RBrowneAssoc.com](mailto:USGHT@RBrowneAssoc.com)

▶ **Target Cup-Liners**   ▶ **Target-Liners**   ▶ **Target Cup-Setters**

These three components are ENGINEERED to fit and function perfectly together. The *Target Cup-Setter* sets the *Target and Cup-Liner* into the golf cup at the perfect depth below the green (5/16") in one swift easy motion. The *Target Cup-Liner* is designed to protect the bottom of the TARGET from accidental displacement by golfers removing the golf ball from the cup (either carelessly or by use of their putter).

The *Target-Liner* itself continues to be the only "practicable" solution to the "impracticable soils" (by definition, "hard to manage, difficult to maintain") in today's high-sand content golf greens. *Target-Liners* stabilize the soil, dramatically enhance visibility, speed up play by reducing pin-tending and reduce desiccation and erosion. They also assure consistent playing characteristics and maintain the USGA required 4 1/4" diameter. Their use significantly reduces the need to relocate golf holes.

<b>Target Price Schedule for 2007</b>	<b>Fax order form to 713-340-1178</b>
